## EDUCATION

---

### University of Alabama in Huntsville

- Bachelor of Science in Computer Science | Minor in Mathematics, 3.6 GPA
- Dean's List 2019-2023
- UAH Presidential Scholarship 2019-2023
- **Relevant Coursework:** Object-Oriented Programming, Data Structures and Algorithms, Database Systems, Operating Systems, Probability and Statistics

## WORK EXPERIENCE

---

### Velocity LLC - Remote

Atlanta, GA

Full-Stack developer (Contract)

August 2024 - Present

- Developed custom applications for startups, utilizing Node.js for the backend and React for the front end, creating tailored solutions to meet client needs.
- Implemented Firebase for real-time database management and used Firebase Functions with Node.js to automate backend workflows, optimizing app performance.
- Collaborated closely with clients and team members to deliver high-quality, custom-built applications for various startup ventures.
- Used Postman to thoroughly test APIs, ensuring seamless integration and functionality across platforms.

### Sequence

Birmingham, AL

Full-Stack developer

May 2023 - August 2024

- Contributed to the development and maintenance of a travel advisory management platform using Node.js, TypeScript, SQL, and Docker boosting operational efficiency.
- Enhanced application performance by refining front-end interactions and optimizing back-end processes with React and Prisma, increasing load times and engagement by 25%.
- Developed a tasklist feature for various travel services, reducing management time by 30% and enhancing operational efficiency.

### Fyve By

Sandy Springs, GA

Software Engineer Intern

May 2022 - September 2022

- Enhanced online presence by 20% by leveraging Javascript, React, and Bootstrap, thereby improving website functionality and user engagement.
- Collaborated effectively within an agile team, consistently meeting deadlines and contributing to the successful completion of multiple sprints.
- Developed a stable AWS-based back-end with zero downtime, using RESTful APIs and robust design principles.

## TECHNICAL SKILLS

---

- **Programming Languages:** JavaScript (including ES6+), TypeScript, HTML/CSS, Java, Python
- **Frameworks/Libraries:** Node.js, React, Angular, Flutter Flow
- **Databases:** SQL, PostgreSQL, Prisma (ORM), MongoDB, Firebase
- **Tools:** Git, Docker, VS Code, Postman, Github, Jira
- **API Design and Development:** Firebase functions, RESTful APIs, OpenAI API,
